

i9 Sports Enhanced Safety Measures

The list below is of enhanced safety measures that i9 Sports is putting into effect prior to the reopening of programs.

- i9 Sports plays small-sided games in almost all of our sports. If group size is still restricted, we will easily be able to adjust our team size and number of kids on the field to meet recommendations.
- We love that i9 Sports is a family event, however at this time, we are asking that the number of spectators stay minimal and immediate family members only.
- Hygiene is very important, so we will make hand-sanitizer available for use by everyone at the field (staff, players and parents) in addition to increasing our equipment hygiene. We will be wiping down all balls and equipment between practices and games.

We will set the expectation with all staff members that they should follow CDC

- guidelines by not reporting to work if they have any symptoms of illness and that they will be asked to go home immediately if they show any symptoms on the field.
- All staff members will be provided masks, and everyone will have their temperature checks upon arrival

Based upon personal preference, parents can choose to have their child wear additional safety equipment, such as face masks, as they see fit.

- Camps are run by i9 Sports Staff that have gone through a background check and are trained on post covid safety protocols.

We are setting up multiple check-in points to maintain social distancing as

- much as possible
